Product Catalog Additional Features – Document Download

DOCUMENT DOWNLOAD

- Purpose of video: Define and demonstrate the document downloads module and how to maintain the data related to it.

- Prerequisite Videos: maintaining product data, file uploads, file types and uploading files, and uploading data.

DOCUMENT DOWNLOADS

* Document Downloads is an add-on feature to the product catalog.

* Allows you to upload document files to your website then assign them to a product.

* Download links to the files appear on the product detail so users can open or download them.
